

**Zero Waste Sonoma County, League of Women Voters,  
Sonoma County Conservation Council and Sierra Club, Sonoma Group present**  
*A Landfill Issues and Zero Waste Communities Workshop on*

# *The Climate Impacts of Waste*

*and*

## *Local Green Business Opportunities*

**Thursday, April 29, 2010, 1-4pm**

**Santa Rosa City Council Chambers, Free**

City Hall, Suite 10, 100 Santa Rosa Avenue at Sonoma Avenue

### **Decision Makers, Activists, Business People & Concerned Citizens:**

Waste reduction is one of California's eight key strategies for reaching the greenhouse gas reduction goals mandated by AB 32, the 2006 Global Warming Solutions Act. As soon as next year, a series of measures will be implemented that will move us toward reduced landfill methane emissions, higher recycling and zero waste - including mandatory commercial recycling. Let's use these upcoming mandates to get ahead of the curve, to better prepare our business community, and move toward a system in which every product is repairable, reusable, compostable or recyclable.

#### **Speakers**

**Mark Gagliardi**, City of Oakland Zero Waste Program and  
CRRRA's Recyclers Global Warming Council

**Timonie Hood**, US EPA Region 9

**Mara Hochmann**, Sonoma County Green Business Program

**Mike Dittmore**, Resource Manager at Agilent Technologies (pending approval)

**Lucien Jamey**, President Sunmoor Properties Inc.

### **Please Consider Becoming A ZWSC Financial Sponsor!**

Please join **Urban Ore, Inc.**, and **Global Materials Recovery Services**, as well as a number individuals, in being a LITE/ZWSC financial sponsor. In-kind sponsors are also welcome!

Funds are used for workshop development, presentations to community groups and city councils, and to conduct research and outreach.

For more information, please email [lite@sonic.net](mailto:lite@sonic.net) or call 707 579-5811.

**Zero Waste Sonoma County is a program of LITE Initiatives**
